EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fredric Sinder on November 19, 2003.

On line 5 of claim 3, the phrase "near or below 0.57 mg/dl" was changed to -near or below 0.60 mg/dl—since Figure 4 in the specification provides proper antecedent basis for the value of 0.60 mg/dl or below for the serum total bilirubin concentration in males, but not for the value of 0.57 mg/dl. On line 5 of claim 3, the units -mg/dl—were inserted after the value "0.40".

2. The following is an examiner's statement of reasons for allowance: Application serial no. 10/016,826 is being allowed since none of the prior art of record teaches or fairly suggests a method for characterizing the risk of rheumatoid arthritis in an individual which comprises the steps of correlating an individual's level of serum total bilirubin to a risk of rheumatoid arthritis, wherein an obtained level of serum total bilirubin below the threshold level recited in the instant claim indicates that the individual is at an increased risk for rheumatoid arthritis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
